

Full face PPE Visor in polypropylene by Priplak

Get a real protective shield against CODIV19.

Cover and protect up to 100% of your face against droplets.

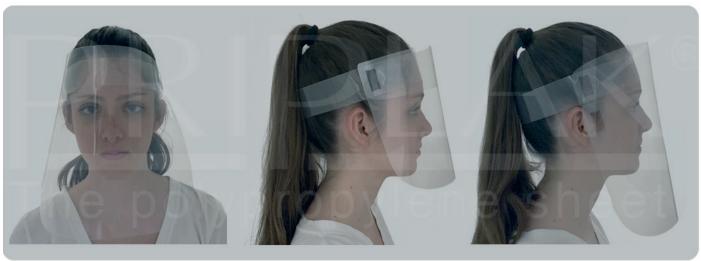

Our visor* is transparent, light and comfortable (adjustable head circumference from XS to XXL and height of the adjustable visor), adapted for wearing glasses, anti fog and can be disinfected with alcohol. We recommend using it in addition to a face mask and whilst respecting social distancing rules.

Mask in small size position.

Mask in large position.
