

Assembly instruction for the complete face protective visor

1°) 2 positions: choose the height according to the size of your face.

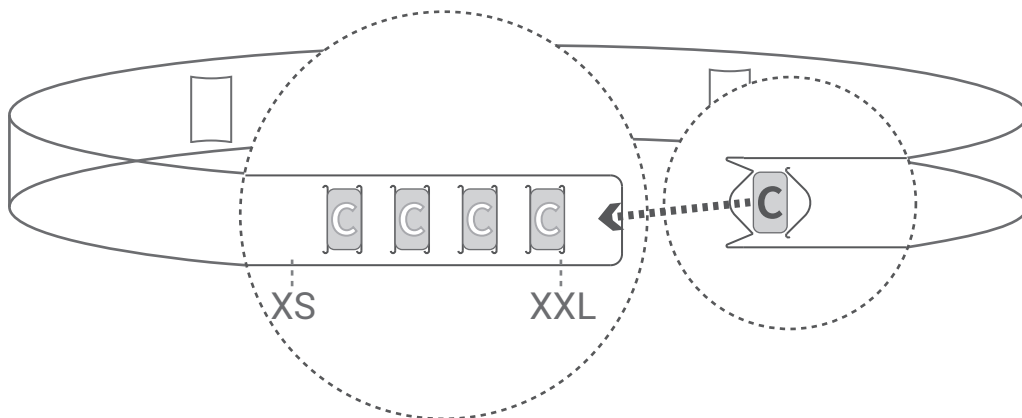

You can fold up the top of the visor if you opt for the small size.

2°) headband assembly/visor: clip the headband (cutout A and B) into the windows of the corresponding visor.

3°) adjustment of the headband: fold the headband back on itself to form a circle and clip it (cut C) in one of the visor windows by choosing the most suitable size.
